Thank you for your ongoing interest with Avenues! The process is much better. I hope you are patting yourself on the back; your process is much better than most, including large foundations. Have a great weekend!

No problem. As you probably picked up this is the first year we have gone to a simplified, online, website-based application process. Because it's a new way of doing things I have been keeping a close watch on the requests coming in just to be sure people weren't encountering problems.

Glad you got through this new process OK. I remember coming out to [REDACTED] last year (which you may recall was actually the 2nd time I had been onsite - the year before I was at an open house owing to my connection with [REDACTED]). You all are doing great work and I know the Wells grant evaluation committee will give you a fair shake.

Based on what you said I will just flag that the one document is a duplicate so as to avoid any confusion.
